SCOPE OF THE JOURNAL

Mechatronics and Applications: An International Journal (MECHATROJ) is a quarterly open access peer-reviewed journal that publishes articles which contribute new results in all areas of the Mechatronics and Applications. The journal focuses on all technical and practical aspects of Mechatronics Engineering Research, applications and Implementation techniques. The goal of this journal is to bring together researchers and practitioners from academia and industry to focus on understanding advances in mechanical design, computing, control systems, microprocessors, electronics and intelligent machines and establishing new collaborations in these areas.

Authors are solicited to contribute to the journal by submitting articles that illustrate research results, projects, surveying works and industrial experiences that describe significant advances in the areas of Mechatronics and applications. Topics of interest include, but are not limited to the following.

Topics of interest include, but are not limited to, the following

- Automotive systems
- Autonomous systems
- Biomedical Engineering
- Control and Automation
- Design, Modeling and Simulation of Mechatronic systems
- Electrical Machines, Drives & Power Electronics
- Engineering and Automation
- Intelligent control
- Machine Design
- Manufacturing Engineering
- Measurement and Diagnostics
- Mechatronic Education
- Real-time Systems
- Robotics
- Signal Processing

Paper Submission & Manuscript preparation Guide

Authors are invited to submit papers for this journal through [Submission System](#). Submissions must be original and should not have been published previously or be under consideration for publication while being evaluated for this Journal. For paper format download the template in this page.

Review Process

Submissions are accepted for review with the understanding that the same work has been neither submitted to, nor published in, another publication. Simultaneous submission to other publications will result in immediate rejection of the paper. Papers are not within the journal scope will be rejected immediately after the pre review process.

All manuscripts will be subject to a well established, fair, unbiased peer review and refereeing procedure, and are considered on the basis of their significance, novelty and usefulness to the Journals readership. The reviewing structure will always ensure the anonymity of the referees & it will be reviewed by 3 experts in the field. The review output will be one of the following decisions:

1. Accept
2. Accept with minor changes
3. Weak Accept with major changes
4. Reject

The review process may take approximately two ~ three months to be completed. The Editor reserves the right to reject a paper if it does not meet the aims and scope of the journal, it is not revised well.
